Government Priority Procurement Online Information Platform SOP

Obligations of Procurement Units

Priority Suppliers

After awarding the contract, the services or goods provided by the priority supplier can be evaluated by reviewing the historical records of the bidding process.

Fill out the procurement tender announcement and decide whether to publish it. This enables priority suppliers to ask procurement-related questions online and receive direct answers.

View small-value procurement tender announcements online and engage in online inquiries about the announcement details as well as submit bids.

7. Tender record query

1. Fill out tender notice (Announcement)
